

# quality certificates

As a manufacturer of medical products, medi has a high awareness for quality. Product and system certificates prove that all legal requirements are met.

## CE mark

Our medi medical products meet all of the requirements of the European Directive 93/42/EWG and of the German Medical Products Act. In accordance with regulations, our products are subject to the conformity assessment procedures and are granted the CE mark. As a kind of “passport for industrial products”, the CE mark guarantees free trade within the European Economic Area (EEA).

## Quality label

Our medical compression hosiery is regularly checked by the Hohenstein Research Institute according to the quality and test provisions of the RAL-GZ 387. As a confirmation that our products meet the quality conditions, you will find the quality label printed on the packaging.

## Textile Trust quality seal

All compression stockings and hose, whether circular-knit or flat-knit, thrombosis prophylaxis stockings and bandages are regularly examined and rated according to strict standards by independent test centres for any toxic substances potentially damaging to human health.

Granting of the Öko-Tex Standard 100 certificate guarantees: Tested quality for the protection of your health.

## DIN EN ISO 9001:2000 / DIN EN 13485

medi maintains the quality management system according to the DIN EN ISO 9001: 2000 and DIN EN 13485. Since 1996 we have demonstrated our ISO 9000 status to our customers with a certificate. Since then, medi has exploited the opportunities offered by this standard to permanently improve products from the business units Phlebology, Orthotics, Prosthetics and Hospital in order to organise safer and more efficient processes and procedures. We define customer satisfaction as a decisive measure of quality.

## Hohenstein testing device – “HOSY”

Correct pressure is the most important feature of a medical compression stocking.
